O lost cause park
(to the tune of O Little Town)

Oh lost cause park at Javelin
Why still you lie and lie?
For not much electricity
You burn and toxify
When asked to share the contract
You send the lawyers in
Redact, cross out and obfuscate
What could you be hiding?

How silently, non violently
Your case is undermined
The Circular economy
Is biting your behind
To fill contractual targets
You need those truck loads in
But when we're done recycling
There's nowt left for the bin

Oh dinosaur at Javelin
It's really not your day
New Waste schemes are emerging
And people want to play
You carry on regardless
Assuming that you'll win
But when you lift the lid off
THERE'S NOTHING IN THE BIN!

Dear Council and contractors, there's
A way if there's a will
To treat our waste sustainably
Knock millions off the bill
All contracts are negotiable
And here's how it could be
Let's use our trash to make some cash
And beat austerity

Some good recycling
(to the tune of "We wish you..."

We don't want incineration
We don't want incineration
We don't want incineration
So don't build it here
  No, don't spend our cash
  On decades of ash
We don't want incineration
So don't build it here

We all know we can do better
We all know we can do better
We all know we can do better
We've made it quite clear
  Both planet and us
  Are sick of this fuss
We all know we can do better
We've made it quite clear

Just bring us some good recycling
Just bring us some good recycling
Just bring us some good recycling
And bring it out here
  Let's do the right thing
  For us and our kin
Just bring us some good recycling
And bring it out here

We wish you a Merry Christmas
We wish you a Merry Christmas
We wish you a Merry Christmas
And a Toxin Free Year
  Glad tidings we bring
  For you and your Bin
We wish you a Merry Christmas
And a Toxin Free Year

Still don't want incineration
(to the tune of Deck the Halls)

Still don't want incineration?
  Fa la la la laaa la la la la
Come and sing out your frustration
  Fa la la la laaa la la la la
Secret contract, too much money
  Fa la la, fa la la, fa la la
Javelin Park just isn't funny
  Fa la la la laaa la la la la

See the broken ground before us
Join the disapproving chorus
We're not going to put our feet up
While contractors dig the street up

Time the public voice was heeded
Burning plastic isn't needed
When supply is spread too thinly
What will you put up your chimney?

Far too many fumes already
Climate's getting quite unsteady
What's the impact, where's it going
While the carbon footprint's growing?

Still the legal cost is mounting
And the council isn't counting
In a hole, don't dig it deeper
Cancelling will still be cheaper

Balfour Baby
(to the tune of Santa Baby)

Balfour Baby
Leave your diggers under the tree for me
So far I've been a good girl
Balfour Baby
But I don't want your chimney tonight

Balfour Baby
You can leave your pile drivers too, oo oo
You won't be needing them soon
Balfour Baby
Cause we don't want your chimney tonight

Think of all the plans we've stowed
Think of all the lorries that we haven't slowed
Next year we could be just as good
If you'd pack up your kit and go
Doodle de do

Balfour Honey
We want to see the back of your tack,
  don't slack
[beat] We've been angels till now
Balfour Baby
But we don't want your chimney tonight

Balfour Baby
[beat] Am I making myself clear, my dear?
We simply don't want you here
Balfour Baby
Cause we don't want your chimney tonight

Think of how we've staved off fate
Think of all the times we haven't
  locked your gate
Next year we could be just as good
If you'd **** off - no please don't wait
Doodle de do

Balfour Baby
I don't want to say it again, so when
Are you a-going to go
Balfour Baby
Cause we don't want your chimney tonight
